

Don't Sign This Petition IF...

- You want some restriction preventing late term abortion through all nine months and up to the moment of birth,
- You believe that all available measures should be taken to assure the health and safety of the mother,
- You believe tax dollars (public funds) should not pay for abortion,
- You believe that parents should be able to provide consent or at least be notified of their daughter's abortion.

Despite what abortion proponents are telling you, the specific wording of the Amendment language allows for all of the above.

Read it for yourself before you sign anything.

The Amendment language is intentionally vague, but here is what to look for:

1. “Every individual” is unrestricted, meaning no age restrictions
2. “... one’s own reproductive decisions” means
 - a) no influence or requirement for parental consent or even notification
 - b) anything regarding reproductive organs, which the courts have deemed to include transgender transitions
3. “The State shall not...” includes any type of interference, such as medical requirements, reporting, counseling, or physician qualifications/training
4. “shall not... discriminate” means the State must provide equal access to low income people on Medicaid
5. “least restrictive means” again allows the lowest standard of care they can get away with
6. “the pregnant patient’s treating physician” means that the abortionist can determine if there could possibly be an impact on the patient’s health, which includes mental health, to go beyond viability
